Courageous, Undaunted, Determined. In appearance Miss Williams, who is still on the sumny side of 40 despite the repeated declarations that ahe is "too old" for good positions, is refined, intelligent, alert, bright and active, despite the excessive stenderness brought about by the "five weeks of practical slarvation" to which she so lightly alludes. The natural case and assurance of her manner has been dimmed by repeated rebuffs and the long slege of eight hours daily of the hardest work known to humanity-looking for employment; she is a little embittyred, perhaps, at being so persistentify, cruelly and pramaturely relegated to the shell of encroaching years and supposed incapacity. (Marion Martineau in Chicago Tribune) Thin Girl-I need something to develop the bust. Is there a quick way? Young Girl-My neck is yellow. Is there such a thing as a skin bleach? Yes; lemon juice and rose water in equal parts will bleach the skin. I have also heard that this is good: One ounce each of lanolin and vaseline. olince each of lanolin and vagetine. Half an ounce of paroxide of hydrogen. Mix and rub on the skin. I do not youch for this, but have it as a French bleach.

The yolks of eggs make a harmless shampoo. For a tonic use a pint of water, half a pint of witch hazel, and half a pint of hay rum. Have slightly warm so as not to chill the scalp.

Bath bags are pleasant and are inexpensive. Here is a good formula:

Lemons.

We know in a dull sort of way that iemons are useful, and, if we did not, might easily find this out by looking over the papers. But just how valuable they are few of us realize. They are of great medicinal value and are put up in bottles and boxes for the benefit (?) of the human family. A teaspoonful of lemon juice in a

These facts help in beautifying one, for one can't be beautiful and alling at the same time. The days are past when the delicate woman with "nerves" was the heroine of all the novels and the "clinging vine" supposed to be admired by all men.

Lemons taken externally, or, rather, used, will aid in beautifying any one. There is nothing more valuable for the toflet table than a solution of lemon julce. A little rubbed on the hands, face and neck at night will not only whiten but soften the skin. A paste made of magnesia and lemon juice, ap-plied to the face and hands upon lying down for fifteen minutes' rest, will

Papeete, Tahiti, July 23.-Via San Francisco, Aug. 8.1-It would seem that the ninety islands known variously as the Low archipelage or Tunmotu grout are destined to be reclaimed by the Pacific ocean.

Last January they were swept by a blood composed of high waves from the ocean and the lesser ones from the enclosed lagoons, and in consequence nearly 600 of the inhabitants were drowned and property to the value of \$500,000 was destroyed. And now months later, flerce gales from southwest and southeast have again caused great surging crests to sweep over some of the Islands. So far only four persons are believed to have persished, but the fear is great that when all the Islands are heard from there may be a distressing list of fatalities.
